

TARIFF PICTURES.
The Protective Tariff decreased the imports of foreign iron and steel from 68.50 pounds per capita in 1881 to 10.47 pounds per capita in 1899; and it increased the production of American pig iron in the same period from 187.79 pounds per capita to 316.94 pounds per capita.

—New York Press.

CLEVELAND HAID TIMES.
Albany Journal.—These should not be termed Jeffersonian nor Jacksonian hard times. Both Jefferson and Jackson were Protectionists.

THE VOICE OF EXPERIENCE.
Washington Post.—If those Coloradans who are unduly excited will apply to the residents of the state of South Carolina they will learn of something to their advantage.

PERTINENT.
Boston Journal.—Among all of Hoke Smith's reductions and suspensions has anybody heard of the lightning striking a single ex-Confederate pensioner of the Mexican War.

ONE RECIPE.
St. Louis Globe Democrat.—One good way to promote the restoration of confidence is to keep the fact in sight that the Democratic party is going to be beaten in the fall elections.

A FINANCIAL ORIGIN'S VIEW.
New York Financier.—Uncertainty about prospective values in manufactured articles has done more to paralyze the industries of the United States than any uncertainty about silver legislation.

THE REAL DIFFICULTY.
Troy Times.—Undoubtedly the repeal of the Silver Purchase clause of the law is advisable, but that alone will not restore confidence. The people hesitate because they cannot make sure calculations so long as radical tariff legislation is threatened.

SINGULAR.
Sydney Herald.—It is a singular thing that the President Cleveland should have decided to call an extra session for August to consider the situation only about two days after Governor Roosevelt P. Flower had remarked that there was no need of doing so.

A GREAT DEAL, INDEED.
Berkshire Democrat and Chronicle.—A Democratic organ in Connecticut tells its readers "there is no reason to howl hard times when a barrel of food can be bought for \$4." Well, that deflates the case or difficulty of getting the \$1 has a great deal to do with the case.

AN UNPOPULAR INVITATION.
Lahoran Star.—The farmers of Ohio will receive \$10,000,000 less for their wool this year than last, although there is as much of it and the quality is not inferior. So much for a Free-trade policy. If the farmers like it they can get more of the same kind by voting the Democratic ticket this fall.

REPRESENTING.
Boston Journal.—"With a change of Government in the state," reads an advertisement in a Welsh paper, "is every prospect of a grand revival of trade." It is refreshing to find business interests which expect increased prosperity with a Democratic Administration, even if you have to cross the broad Atlantic to find them.

LOOK OUT FOR THIS COUNTRY.
Logan (O.) Gazette.—The tariff keeps wool up, but it keeps American factories at work, American wool-growers in business and American labor employed. What good is cheap wool if it doesn't benefit our country? It is good for Australia to see prices down in this country. But we are not concerned as to Australia's prosperity. It is American success we are ambitious for.

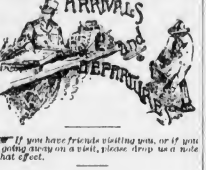

THE COUNTRY SHOULD BE INFORMED.
Berkshire Democrat and Chronicle.—If Protection is not to be destroyed totally to that effect should be given from Washington. The country is in a state of direful doubt and uncertainty. It knows nothing of the conditions that govern business affairs in this country. This ignorance, together with a fear that the doctrine proclaimed at Chicago may be enforced, is responsible for nine-tenths of the present disorder and depression.

SAMUEL M. PIERCE, aged 70, died suddenly at Paris from paralysis. He was a prominent Berkshire hog raiser.

Any Person
That is troubled with constipation can get relief with it, as it is used in Chicago at a good bedtime, and one can start out to the World's Fair early the next morning, refreshed by a good night's sleep.

This Postoffice is the pulse of the local business. Measured from the present receipts from sales of stamps, business is extremely quiet. As a result of the good Democratic general days, the salary of the Postmaster will next year be a few hundred less than it now is—say nothing of the \$300 a year that he pays out of his own pocket for clerks.

JOE SCHMITT, a former Covington alderman, was operated upon by Dr. Terrell and four gallons of water taken from him. This is a faithful warning to every citizen of Covington whosoever. Boys, catch to the Maysville brand, which hasn't so much dangerous water in it.

THERE was such a panic among bank depositors at Mt. Sterling that it required speeches from such Republicans as Judge Holt and Major A. T. Wood to restore confidence. That's it, when Democracy gets things into a tangle, the Republicans always have to straighten them out.

Saturday Night's Receipts.
The receipts of Maysville's three Building Associations Saturday night were as follows:

Home Association	396.55
Home Association	296.55

THE LEDGER..

is the largest daily
paper printed in May-
ville--containing the re-
sults and news of the
election and the state of
the country.

It gives you more
reading matter than
any other paper.

It is sold at the same
price as any other May-
ville paper--one cent a
copy of 25 cents a
month, delivered by car-
rier or sent by mail.

You are looking for the
best for your money,
you can get it in THE
LEDGER.

Now is the time to sub-
scribe--suppose you give
it a month's trial.

The Business Way!

The business way
to advertise is to
take space by the
year, take pains with your
advertisements in making
them attractive, and change
them at least as often as
once a month.

You may think there are
seasons when you don't need
to advertise.

We have never seen that
time.

Use the dull seasons for
looking over your stock and
running off that which is
becoming out of style or un-
fashionable, and giving bare-
nness.

If you have space by the
year, it costs you no more,
and you can make it profit-
able by converting unsalable
goods into money, and rein-
vesting the money in those
things which are salable.

CERTAIN Democratic organs assert
that the change that present business
conditions are the result of Democratic
ascendency is "an
insult to the
people." The people
deliberately elected
CLEVELAND, we are
told, on a Free-
trade, wildcat money platform; and
the statement that his election has brought
about universal loss of confidence is
counted as "propaganda." This Demo-
cratic pretense is so obviously blinding
that it ought not to impose on any
reader of ordinary intelligence. In the
first place the assumption that Mr.
CLEVELAND was the choice of a majority
of American voters is a falsehood. Mr.
CLEVELAND is a minority President. His
supporters were in a minority of
over a million in the popular vote last
November. In the second place, Mr.
CLEVELAND was not the choice of the
substantial, intelligent citizens of the
Nation. He was elected by a coalition
between the Socialistic "cheap"
money fanatics of the West, the Bour-
bons of the South and the great masses
of unenlightened voters in Northern
cities, who are unfamiliar with Ameri-
can institutions and misled by Demo-
cratic demagogues. The forces behind
the Democratic candidate were the
forces of disorder and destruction. Their
success meant the triumph of ignorance
and prejudice; it meant debasement of
the National currency; and the country
has so accepted it. The *Nation* and
Munsey's point out the absurdity
of the Democratic pretense that the
CLEVELAND Administration in any sense
represents the business interests of the
country. It says:

The fear which has come into com-
mercial circles in this country represents the
opinion entertained of Mr. CLEVELAND
and his party by business men in the
East. These people did not elect him.
The Americans who conduct the great
business enterprises of the Nation did not
want him in November and they have no

faith in him now. They plainly foresee
that his success meant profound distur-
bance of business and the great interrup-
tion of the injury already inflicted upon
it by falling prices. They opposed him
because they had this fear in view, and
when they were overruled at the polls,
they began to prepare for the storm
period upon which we have now entered.

It is no wonder, says *The New York
Press*, that Democratic newspapers are
laboring desperately to persuade the
business men of the United States that
the responsibility for the shrinkage of
more than a billion dollars in values
since November will be due to the Sher-
man Law; it is no wonder that the Ad-
ministration, in view of the enormous
losses to the people already witnessed
and the yet greater losses in prospect,
puts forth "statements" after "state-
ments" in the futile effort to convince
the public that the crippling of credit
and the death of enterprise are due to
some other reason than Democratic tri-
umph on the Chicago platform of de-
struction. But the people are not de-
ceived. They know that the year
before the election of CLEVELAND, with
the Sherman Law in full operation, was
the most prosperous in the Nation's
history.

The Democratic party has declared
that it will revolutionize every indus-
trial condition. It has demanded the
restoration of the irredeemable gold
back currency of ante-bellum days. It
has pledged itself to repeal the Tariff
that maintains American industrial in-
dependence and American standards of
living in the homes of labor. It has
denounced the caplains of American in-
dustry as robbers and oppressors; it has
proclaimed them the enemies of society,
and urged the necessity of making their
investments valueless and of depriving
them of the power to give employment
to American workmen. In the face
of this crusade of anarchy and
bloodshed GEORGE CLEVELAND has been
found. He has shown himself the eager
enemy of his country's industries and
progress. He has played the part of a
demagogue without conscience or patri-
otism. In order to win the applause of
the ignorant and unwary elements
of his party. With such a man at the
Presidential chair and such a party as
the Democracy dominant in both branches
of Congress, stoppage of enterprise,
death of credit and widespread disaster
to the interests of the Nation were in-
evitable. Search the Sherman Law for
the causes of the Nation's loss; more
than a billion dollars since November
and you will search in vain. The fac-
tors which have changed confidence into
distrust and prosperity into panic are
not found in the statute books. They
are found in the demands of the Chicago
platform and the record of the Demo-
cratic party.

EVERYTHING just now is cheap
enough; but where's the money to buy
it?

The able Editor of *The Times-Demo-
crat* wants to know what a "driving
spring" is. Well, we don't know; but
it is probably a "tax."

BOYS, you haven't struck the edge of
the cyclone yet. Just wait till Con-
gress meets and then you'll know what
real good Democratic "good times" is!

The people of Denver are trembling
in their stocking feet lest there be an
outbreak among the thousands of idle
and hungry men who are walking the
streets. Well, most of these same peo-
ple wanted a change, and now they have
it, be good!

Mr. CLEVELAND has made several mis-
takes, a fact which he himself is no
doubt free to admit. But one of them
stands out more boldly than his choice
of Commissioner of Pensions. Heought,
by all means, to have selected the Ed-
itor of *The Evening Star* Times-Demo-
crat for that place.

A CLEVELAND Democratic friend thinks
THE LEDGER is unfair in attributing
the present conditions to the Democratic
Administration. Well, you "us prom-
ised" us "good old-fashioned Democratic
good times" when you got in power;
and as you are now in power all along
the line for the first time in a third of
a century; and as the present times are
so different from any that have existed
during Republican rule, we take it for
granted that they must be the good old-
fashioned Democratic times that we
heard so much about last fall. Let us
pray!

A CURIOUS CALCULATION.

Around the World 208 Times.

An eminent physician has made a curious
mathematical calculation in giving the
workings of the human heart in mileage.
He shows that in a lifetime of 84 years
the blood as it passes through the heart is
thrown a distance of 5,150,880 miles, which
is a continuous stream, would reach around
the world 208 times!

Keeping in view this constant strain on
the heart, and taking into consideration the
above it receives from over-exercion, ad-
vance and other stimulants, it is a wonder
that it finally becomes affected, refuses to
perform its work, and causes death? The
fact can be readily understood that one in
four has a weak heart, also the importance of
treating that organ as soon as its affected con-
dition is in the slightest degree manifested.

Reader, if you have any reason whatever
for believing your heart to be affected, you
should attend to it at once. Do not hesi-
tate. Many persons who die suddenly of this
disorder have never suspected its presence.

Joseph Brady, Pittsburg, Pa., writes: "Thir-
ty years ago I began to have difficulty in breath-
ing, palpitation of the heart, and my limbs and
ankles were badly swollen. Physicians said I
could not live more than a few days. I bought
New Heart Cure, the first bottle greatly relieved
me, and the second I was cured. I have since
taken it altogether so I am perfectly benefited
now that I am a new man. I cheerfully recom-
mend this remedy."

While suffering from a severe attack of heart
disease, and according to the physicians having
absolutely no relief, I was told to try New Heart
Cure. I bought a bottle and it cured me. I have
since taken it altogether so I am perfectly benefited
now that I am a new man. I cheerfully recom-
mend this remedy."

For 20 years I was seriously troubled with
heart disease and nervous prostration, the latter
affecting the entire nerve of my left side. For
that time I was treated by many prominent
physicians, and sent hundreds of dollars away
for medicine, all of which failed. Recently I
began using Mr. Mine New Heart Cure, and am
now entirely free from my old complaints."
George J. Barry, Pittsburg City, Pa.

Dr. Mine New Heart Cure is sold on a pos-
itive guarantee by all Druggists, or by Dr. Mine
Medical Co., Chicago, Ill., on receipt of price
per bottle, six bottles \$5.00, express prepaid.
It positively contains neither opium nor dangerous
drugs. Free of all drugs, or by mail.
